

# COMPANY DIRECT PROGRAM

For All Your Orthopaedic Needs

Our program is an innovative healthcare service providing a high quality, cost effective solution for employees and employers.

## What you need to know:

The COMPANY DIRECT PROGRAM with OSS Health offers set rates per visit and bundled package rates based on expected costs for clinically-defined periods of orthopaedic care. This program is FREE to employees.

The PATIENT NAVIGATOR at OSS Health manages everything related to the care period - from selecting a physician and scheduling appointments to gathering medical records to coordinating logistics and follow-up. This reduces unnecessary stress for the patient and ensures appropriate post-surgical care. It can also shorten the timeline for appointments and surgery through coordinated care.

## Here's how it works:

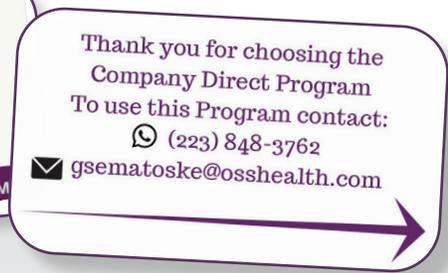

Employees enrolled in the program will receive a Company Direct card from their employer. As care is needed, the employee will contact the Patient Navigator at OSS Health to schedule their appointment. If you have the HDHP, you must meet your deductible prior to being fully enrolled in the program. Please call the OSS Company Direct Hotline with any questions.

## Call the Company Direct Hotline for questions or to schedule an appointment:

223-848-3762 or email [CompanyDirect@osshealth.com](mailto:CompanyDirect@osshealth.com)
