- ▶ Owned and operated by OSS Health physicians

OSS Health
COMPANY DIRECT PROGRAM
PROVIDING HIGH-QUALITY,
COST-EFFECTIVE ORTHOPAEDIC CARE

osshealth.com

OWNED & OPERATED BY OSS HEALTH PHYSICIANS

OVERVIEW

The **COMPANY DIRECT PROGRAM** with OSS Health is an innovative healthcare service providing a high quality, cost effective solution for employees and employers. The program offers set rates per visit and bundled package rates based on expected costs for clinically-defined periods of orthopaedic care.

The **PATIENT NAVIGATOR** at OSS Health manages everything related to the care period - from selecting a physician and scheduling appointments to gathering medical records to coordinating logistics and follow-up. Not only does this streamline the various tasks and paperwork, it reduces unnecessary stress for the patient and ensures appropriate post-surgical care. It can also shorten the timeline for appointments and surgery through coordinated care.

In essence, the **COMPANY DIRECT PROGRAM** covers patient care costs from start to finish, and expedites, tracks and simplifies the process along the way.

BENEFITS

- **HIGH QUALITY HEALTHCARE CONTINUUM** - talented, specialized physicians committed to your orthopaedic needs
- **COST-EFFECTIVE** - savings from limited to no out-of-pocket expense for employees, and one single-source of billing
- **PATIENT NAVIGATOR** - expedites the scheduling and treatment process for a no-hassle experience

HOW DOES IT WORK?

Employees enrolled in the program will receive a **COMPANY DIRECT CARD** from their employer. As care is needed, the employee will contact the **PATIENT NAVIGATOR** at OSS Health using the contact information provided on the card to schedule their initial appointment.

THE PROGRAM TYPICALLY COVERS FEES FOR:

- Office Visits
- Surgery
- Facility Fees
